

Paul Buske

CSCI 3350-W01

Final Project Part 1

Website Title: Paul's Construction Solutions (PCS)

The website targets perspective customers who want to build with Paul's Construction Solutions. The intent of the website is to offer a platform that allows the customer to get a feel for the Clarksville area by highlighting different places like the Roxy and Dunbar cave. The website will also feature links to information about the local schools around the neighborhood.

The neighborhood link to the website will include floor plans, estimated pricing, and amenities like the community pool and golf course. It will feature the benefits of building with Paul's Construction Solutions including an unmatched full two-year warranty. The website will also have a way for people to file claims for warranty repairs.

Target audience: Homebuyers that can afford homes starting in the low \$200,000s.

Sections:

1. Landing Page

a. Header (from left to right)

i. Logo

ii. Nav Bar

1. Remodels

2. Floor Plans

HOW WE WORK

We Come in Threes

Embarking on a design quest with ZURB is unlike anything else you've ever experienced. A Design Lead and Designer will be your copilots to refine Ideas and build prototypes and Advocate will help surface insights. We move really fast and hate radio silence, so expect communication from us every 2 days to share progress and ensure we're on the right path. We're there every step of the way to make sure you achieve your objectives and touch down safely!

Our Process
